BSE STUDENT SELECTED TO JOIN K-STATE CANCER RESEARCH TEAM
Clay Schemm, BSE junior, is one of 37 undergrad students selected to participate in the Johnson Cancer Research Center’s research mentoring and award program. The program promotes early participation in laboratory research, encourages students to consider careers in cancer research and medicine while the students are deciding what academic and professional paths to take. Students applied for the awards by co-writing research proposals with faculty mentors affiliated with the Johnson Cancer Research Center. Award recipients will conduct their research in the mentors’ laboratories during the spring semester. Congratulations, Clay!
